

Joslyn Art Museum Cleaning Protocol

In response to COVID-19 and in adherence to city, state, and federal guidelines, Joslyn Art Museum has taken a number of steps to ensure a safe environment for our visitors. Below is a summary of the Museum's current cleaning protocol.

As recommended by the Centers for Disease Control and Prevention (CDC), standard cleaning products are used in the absence of any known risk factors.

All hard surfaces are cleaned twice per day, including:

- Front desk and other countertops
- Door knobs and handles
- Handrails
- Benches

Restrooms

Cleaned twice per day

Includes: stall door handles, toilet seats, urinals, soap dispensers, and flat surfaces (restroom entrance/exit doors, flush mechanisms, water faucets, and paper towel dispensers are touch-free)

Elevator Buttons

Cleaned twice per day

Wheelchairs, scooter, strollers

Sanitized after each use

Lockers

Sanitized after each use
